

New for 2023!

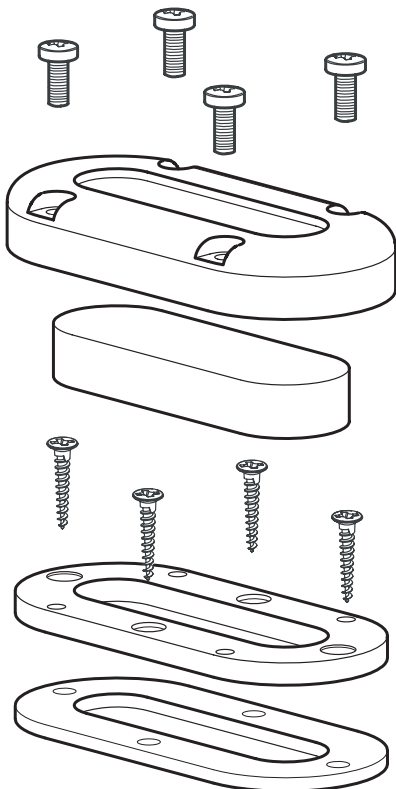

DS-MULTI-P-BLK

DS-MULTI-P-BLK was designed to provide a quick and easy installation for multiple cables.

Constructed from high-impact plastic, DS-MULTI-P-BLK is UV-stable and hard-wearing, providing a 100% watertight seal, no matter the weather.

Supplied with an undrilled seal allowing you to custom-drill holes to match your cable requirement. Designed for multiple cables up to Ø15mm (0.71"), DS-MULTI-P-BLK is perfect for solar panels, lights, and other rooftop electronics.

- IP68 Waterproof.
- Designed to fit multiple cables up to 15mm (0.71") diameter.
- UV resistant.
- Supplied with undrilled bungs and made from marine grade black high impact plastic.
- No messy sealant on bung.
- Easy fit cable routing that cuts down your installation time.
- A guaranteed 100% watertight seal.
- Designed for a range of cable diameters making it ideal for almost every installation.
